**Summary.**

International Military Student Officers (IMSOs) at the first training site should review all international student s visa’s in order to revalidate and ensure conditions of automatic revalidation of the I-94 are met to comply with DHL. SCOS will be apprised of this change, and will brief students prior to departing country. The I-94 admission record is created electronically and maintained in U.S. Customs and Border Protection (CBP) systems.

If entry occurred prior to automation, a paper form must be presented in order to comply with validation requirements. The fact that local entities may not be aware of this administrative (and not inconsequential) change, and the problems our students sometimes incur during any given phase of their CONUS training, IMSs are encouraged to access the website and print out a copy of the I-94 as soon as they can. IMSOs should be prepared to provide assistance. . IMSOs will assist IMSs who are unable to do so on their own or who experience difficulty accessing computers and/or printers. IMSs who have country liaison office representation should be assisted by their representatives .

**Background.**

International students lawfully admitted into the U.S. are no longer required to be in possession of a preprinted Form 1-94. A record of admission printed from the CBP (Customs & Border Protection) website constitutes a lawful record of admission: [www.cbp.gov/I94](http://www.cbp.gov/I94).
